

# Case Study

## Before What To Post?!

Prior to our engagement, Bravoz faced several challenges, including infrequent posting, declining business performance, and complications stemming from their previous agency's efforts. These issues necessitated a strategic intervention to effectively address and resolve the situation.

## After What To Post?!

Once we joined Bravoz Team, business turned around nearly immediately. Social media posts are published nearly everyday, customers reached continues to accelorate, and revenue continues to increase. Party bookings and walk in traffic are much higher than before, and the owners are feeling hopeful about their business again.
